

TOURO COLLEGE & UNIVERSITY SYSTEM

2011

Faculty Publications

**Main Campus of Touro College
27-33 West 23rd Street, New York, NY 10010**

The Touro College and University System is a Jewish-sponsored independent institution of higher and professional education serving the larger American community. Approximately 19,000 students are currently enrolled in its various schools and divisions. Touro College is accredited by the Middle States Commission on Higher Education, 3624 Market Street, Philadelphia, PA 19104, phone number (267) 284-5000. The Middle States Commission on Higher Education is an institutional accrediting agency recognized by the United States Secretary of Education and the Council for Higher Education Accreditation.

All Touro branches in California and Nevada are accredited by the Accrediting Commission, for Senior Colleges and Universities of the Western Association of Schools and Colleges, 985 Atlantic Avenue, #100 Alameda, CA 94501, phone number (510) 748-9001.

For more information on the Touro College & University System, please visit us on the web at: www.touro.edu or call (212) 463-0400.

Message from the President

Welcome to Touro College and University System's second edition of our faculty research publication. Like the first volume, it contains an index of research published in 2011. But in this edition there are approximately 120 authors, many more than the previous volume. Through their research and meticulous scholarship, Touro carries forward its intellectual tradition.

This compilation of research accomplishments of our outstanding faculty reflects the multifaceted scholarly expertise of the Touro College and University System. In December 2011, the Touro College Research Advancement Task Force was established to determine Touro's current state of research and future research aspirations. The Faculty Publications Database (www.touro.edu/library), built and maintained by Touro's library staff, has become an important tool for highlighting Touro's research activities and scholarship. I am confident that it will continue to grow in scope and significance in many academic disciplines.

I invite researchers, both within and outside the Touro College and University System, to draw upon the scholarly resources of our online database and this publication. I am proud of the achievements of all of our dedicated researchers and look forward to ongoing research excellence in the years ahead.

Sincerely,

A handwritten signature in dark ink, appearing to read "Alan Kadish", written in a cursive style.

Dr. Alan Kadish
President and CEO

Acknowledgments

When the library started building the Faculty Publication database over two years ago, I never imagined that it will grow so fast, and turn into such a well-received and important project. Yet, it has indeed become a place that brings together the research efforts of our faculty. It has increased awareness of faculty research interest, and has contributed to promote research and collaboration throughout the Touro College and University System community. I am therefore delighted to welcome you all back to this second annual edition of the Touro faculty publications.

A project this vast and filled with detail can only happen with the help of individuals who inexhaustibly assist me in many ways: Senior Vice President, Rabbi Moshe Krupka, who continues to push this project forward by firmly supporting the Library and its mission. Chief of Staff, David Raab, has been a listening ear and a guiding voice through the more difficult days of this growing project.

Annette Carr and Gregory McMurray: Without their persistence, expertise, earnest attention to detail and hard work, this second book of publications would not have been finished in such a timely manner.

I also would like to thank Yitzchak Shaffer, Systems Manager of the Libraries, who originally built this database from scratch and remains the key figure in helping to improve this ever evolving database. Bashe Simon, Director of the Libraries, thank you for being at my side from the beginning of this project's journey.

Thank you Esther Greenfield: Your energy, willingness to collaborate, and urge for perfectionism is truly appreciated. You are the one who magically turns this project into a beautiful publication each year.

And last but not least, I wanted to thank all contributing faculty members without whose research and publications this book would have been a mere collection of blank pages.

Sara Tabaei
Project Manager

Note from the Library

This publication marks the second annual Faculty Publications book. The 2011 book attests to the continued and diverse research being conducted by the Touro College/University community. In an effort to accommodate our faculty's expanding scope, the Touro College Libraries have included 2011 foreign language publications, a music score, and art exhibitions – truly a credit to our eclectic sensibilities.

This book is again organized in two ways: listing faculty members alphabetically and listing publications by the different Touro College schools. We feel that this will afford users the greatest ease of searchability.

Ultimately though, this publication is an offshoot of the Touro College Library faculty publications database found at www.touro.edu/library. This permanent, searchable database of research accomplishments by the Touro faculty is maintained on a constant basis. The Project Manager is Sara Tabaei, Library Information Literacy Services Director. Annette Carr, Business Librarian, has devoted many hours in verifying the citations received from faculty members, entering them into the faculty publications database as well as preparing the annual Faculty Publication Book. Greg McMurray, Library Assistant, came to our rescue and assisted in proof-reading and editing the final version.

We encourage all faculty and staff members to share their research information with the Library and thereby with research scholars, students, and professionals worldwide.

Bashe Simon
Director of Libraries
